Finds it Necessary to Revise its Campaign Literature.

Each Member of President Harrison's Cabinet will Take Part in the Campaign.

Washington, Sept. 9.—[Associated Press.] Postmaster General Wanamaker today issued the expected order deputizing postmasters in free delivery cities, towns and rural communities to put up letter boxes on the request of citizens for the collection and delivery of mail at house doors.

The order affects nearly 3,000,000 residences to which free delivery service is already extended, and it is regarded by post experts as a most im-portant departure in the free delivery of mails since the beginning of the system under Postmaster General Blair.

A Burgiar Keeps a Safe.

On Monday the burglar who broke into Colonel Arthur Paget's house, in Belgrave square, a few nights ago, was charged at the Westminster police court and committed for trial at the Old Bailey. It appeared in evidence that this prisoner, named Thurgar, alias Knot, has struck out a new line in the business of cracksman. Since August last, when he came out of prison, he has rented a safe at the Chancery Lane Safe deposit, in order no doubt to avoid any unpleasant association with receivers of stolen goods. When searched by the police the safe was found empty, yet no doubt, but for the accident of Colonel Paget's appearance at the moment when Thurgar was taking Mrs. Paget's jewels, it would now contain plenty of articles of value.

There is something very amusing in the picture of the apparently respectable middle class gentleman who rents a safe and is constantly depositing in it heavy packages, but who is in reality a noted burglar. The writers of melo drama have never dared to draw so impossible a picture as this; and yet, after all, they might with perfect propriety have brought the millionaire and Bill Sykes together in the corridor of the Safe deposit.-London Spectator.

A Yavapai Discontented Pedagogue,

Literary Monstrosity of Silly Abuse which is Strangely a High Encomium.

PRESCOTT, August 22, 1892. Editors Prescott Courier:

Please allow space in your paper for county. I notice in my travels over the county that a large portion of the schools are already contracted for by schools are already contracted for by teachers from Maricopa county, while teachers of this county are without schools and are compelled to change their vocation or be idle. Are the teachers of this county capable of teaching school? Are they not the ones to teach our schools? Yes. They are capable and are the ones who should teach them. It holds the money in our own county and more of it is put in circulation by giving it to our own teachers; while every dollar that we give to Maricopa teachers goes to enhance their county wealth. Then let me inquire why it is that our teachers me inquire why it is that our teachers are not employed in their stead. Is it because the graduates of the Maricopa Normal are better scholars than our

High school and St. Joseph's Academy furnish teachers who defy Maricopa competitors, and the teachers who are competitors, and the teachers who are located here whether graduates of the convent or not feel themselves capable of facing the Maricopas. It is because they so not feel themselves above their pupils and the patrons, and don't have that stuffed up appearance? It must be a part of the cause, for I notice wherever you see a Yayapai teacher you see a social indi-Yayapai teacher you see a social individul who has a pleasant smile for you, capable of conversing on any subject. Oh! The Maricopas are not that way; dry, haughty, and in general appearances are of a stupid, sluggish nature: their minds are inactive us that come they come from a country which acts on the mind in such a way as to make them inactive. The writer They have all the public buildings, such as the capitol, normal buildings and the insane asylum, and yet they want that which is necessary for us to have or we must cease to be a county. I say every man who has a say ought to battle against the great wrong that is now being imposed upon the people; we have rights and privileges and we must maintain them, or else give up to Governor Zulick's friends and the rest of Maricopa's teachers all rights and privileges. But of all of this, I'll wager that Yavapai teachers are far superior to any other in Arizona.

O, give to our Yavapai teachers their portion of bread, For from its school funds they must all be fed.

Respectfully, T. W. BENDAVIS.

PHŒNIX, Ariz., Sept. 9, 1892. While the above article is noted for out the one thing, it surely contains the most senile and rediculous abuse of anything that I have seen in a long ime. It is surely the first effusion of the writer and he had more thought of getting into print than of looking well, r thinking logically after he got The mark of crudeness is not only in the expression of his thought, but in the thought itself, and no man who belongs to the profession he assails can be an honorable member of that profession and attack the teachers of Maricopa county with the bitterness he attempts o bring to use.

I have nothing to say against the schools of Yavapai county or her teachers. The few of them that I do know are ladies and gentlemen who I think are endowed with liberal educations, and not only that, but also that peculiar tact and innate nobleness so necessary in the composition of a lady or gentleman. I do know the teachers of Maricops county, all of them, and not a finer body of men and women ever collected in Phoenix than attended the institute here last December, I will say to Mr. Bendavis that we have second grade teachers, but they are only second in the knowledge derived from books and not in the natural requirements of ladies and gentlemen. They are every one competent, too, to teach all their papers authorize them to teach. I will ed to think that he is not a teacher, though if he is in any way connected tanced by some Maricopa county com-petitor, for no other kind of feeling but pleasantly in the affirmative. petty jealousy could give rise to such an

article as he tried to write. Down here people are employed for heir fitness, and their fitness is often udged by the recommendations they bear. It is silly and unjust to bring up the question of the Territorial Normal and speak of it as a Phonix institution. It belongs to the territory and our friend from Yavapai is welcome to attend it—in fact I would recommend it to him after reading his letter. The two Prescott schools of which he speaks may be just as good. I have nothing to say just as good, I have nothing to say against them, and the teachers up there may be just as good, as bright, intellectually and socially, but our friend should attend the schools and cultivate the society. In the one, he may learn the art of expression and in the other the art of behavior.

I do not know that a teacher is em-ployed exclusively for social qualities in fact I think the best teacher I ever had was the most taciturn. A teacher should be a student, and if he keeps pace with his profession, he must be. Now it is plain to everyone, that a "vic-tim of society" cannot confine himself to the investigation of anything. I think that the teachers with whom I am acquainted have that peculiar tact of being able to throw study off the

mind when work is done to a greater extent than any people I ever knew.

A CARD

No. That cannot be, for the Prescott To the Republican Voters of Phoenix Precinct, Maricopa County, Ariz. With a full appreciation of the honor

conferred upon me by the mass meeting at the city hall last night in nominating me as one of the delegates to the county convention to be voted for at the primaries of our party next Wednesday. I must most respectfully ask that my name be not used by you or voted for at such primaries, and that in my stead substitute some other whom you know to be true to the party.

As a Republican of life long standing my desire is the success of our party.

With a majority on straight party vote in this county I recognize that success only lies in united action. To accomplish this there must be enthusiastic unity and such unity can not for a moment be accomplished if we begin our campaign by the engendering of personal feeling, enmity and factional strife. Last night I witnessed for the first time in my brief residence in the territory a meeting of the precinct Re-publicans and it does seem to me that publicans and it does seem to me that floor was offered but on the motion of the table. there was there evinced a desire to allow Judge Woodward was laid on the table. door.

Guided by the belief that of permitting Democrats to vote follow-I am right, and that last night saw the ed, but it was ably shown that nothing first seed of dissension planted among us, I now reiterate my first announced desire that my name be substituted for some other staunch and true Republican. To you who honored me with the homination 'tis my request that the one substituted be he whom to you from factional feeling (if there was any) seemed last night, most objectionable. I now unqualifiedly pledge my active support of and co-operation with every candidate named by our county con-vention when the nominations are made. I wish no office, and my whole desire is the success of our party at the coming election. Whom among the untried and new Republicans of Mari-copa county now on last night's ticket will join me in making way for those who have nobly worked in the harness of our party and battled for its princi-

ples in days when the party was without hope of success, and thus prevent conflict at the primary polls or discord after the county nominations?

The next business was the selection of a list of persons to be voted upon at the primaries for delegates to the counconvention. There was a difference of opinion as to the manuer in which they should be chosen. A motion was made that a committee of five be ap-pointed to select the list. This was amended by raising the number of the committe to nine. A substitute motion that the delegates be chosen from the

A brief discussion as to the propriety should be thrown in the way of those who having seen the error of their way were struggling along the path which leads to a higher political existence. Such persons, if any there were in the crowd, should be received with open arms rather than repulsed like political Pariahs. A motion was then made to permit even John O. Dunbar to remain.

This having been settled, the chair appointed a committee consisting of George Bernard, F. W. Sheridan, W. F. Schaller, A. J. Porterie and C. J. Dyer to prepare a list of persons to be supported as delegates to the convention. The committee retired and a recess of ten minutes was taken.

The trouble expected will grow out of two causes, the first of which is ancient and deepseated ill feeling. The other cause is a multiplicity of candidates. There will probably be a few voters at the polls who are neither candidates themselves nor desirous of anything themselves nor desirous of anything for their friends or relatives. This class of voters is in a hopeless minority and it can not reasonably expect to leaven the whole lump.
